

Guidelines for Video Confidentiality for Faculty

Candidate Video Recordings

If a candidate permits an authorized faculty member to access his or her video recording, the faculty must treat the video recording as a confidential assessment record.

All feedback must conform to the [edTPA Guidelines for Acceptable Candidate Support](#).

Faculty Members may not

- Store/upload a candidate video to a system that has not been designated as a secure system to support edTPA at your educator preparation program;
- Share or post the video on the internet (e.g., YouTube, Facebook) or other non-secured and/or publicly accessible locations;
- Show any candidate video to or share with any other individual, educator preparation program, or entity unless permission is granted by the candidate and is within the parameters of the release forms the candidate has received for students or adults who appear in the video.
